

# Clean Air...

## COMPACT BIOFILTER B-003-E

### Scope of supply:

- Fan/with support frame
- Control panel
- Internal wiring
- Filter media
- Pre-assembling
- Corrosion resistant FRP housing

### Benefits:

- Removal of organic odours and VOCs
- Wide range of applications
- Integral packed scrubber for optimal pre-treatment and humidifying
- Freeze protection for scrubber sump with self regulating electrical heater
- Real biological decomposition of pollutant
- Site erection and commissioning on request

TECHNICAL DATA:	
Capacity:	150 – 500 m <sup>3</sup> /h
L / W / H	3,75 m / 1,32 m / 1,50 m
Fan (material: PP/PPs)	400 V, 0,55 kW
Re-circulation pump:	400 V, 0,55 kW
Electrical heater:	230 V, 1 kW
Water consumption:	appr. 30 l/h
